PARIS, April 20.—(By The Associated Press.)—Instructions sent by Premier Poincare to the French ambassadors in the capital of the allies and fully approved by the cabinet, are to insist that energetic measures must be taken and penalties applied to Germany if the Russo-German treaty is not abrogated, regardless of what the Genoa conference may decide.

MELLON SAYS ANOTHER LEVY IS NECESSARY

Deficit of More Than \$350,000,000 for Fiscal Year 1923

JUST ONE WAY OUT

Taxation Declared Only Means of Raising Amount Needed

WASHINGTON, April 20.—Levying of additional taxes probably will be necessary to meet the deficit of more than \$350,000,000 forecast for the fiscal year of 1923 by Secretary Mellon. It was said today at the treasury.

High officials of the treasury discussing the expected deficit, said that no consideration had yet been given to means of meeting the lack of funds but that it was apparent the deficit probably would have to be raised by taxation as the government "did not have anything to sell."

Whether the deficit would run as high as a half billion dollars as estimated by some treasury officials could not be accurately determined at this time, it was said, as the various contingent items of revenue and expenditure taken into consideration in figuring the finances for the coming fiscal year made an accurate determination of the expected deficit impossible. Officials asserted, however, a considerable deficit was certain.
